## Vision & Brand

UDM reinterprets timeless design by combining classy aesthetics with high-end hand crafted acetate constructions.

This is about vision,  
geometric twist and  
craftmanship for the  
*eyewear brand* of your  
life journey.

### Unique

Our uniqueness is shaped by a return to timeless vision, where the classic eyewear references meets the contemporary interpreted through aesthetic visual language.

### Design

From simple and at the same time ingenious lines that only a complex city full of creative moments like Milan can inspire. Strong, decisive lines, the exaltation of shapes with thicknesses, a fresh design to excite lovers of beauty.

### Milano

Seductive, tenacious, heterogeneous, futuristic, fast. Milan is a hub of ideas, creativity, connections. Cradle of innovation, intertwining, stories. Milan is poetry, and it is our place.

Who We Are

# UDM is a result of many conversations about fashion, design and cultural roots.

Founded in Italy in 2018 by Stefano Romanelli and Mattia Colleoni, it is one of the most ambitious names of the Italian acetate eyewear, from optical to sunglasses collections.

The idea was inspired by the family interior design company of one of the founders, established in the late 60's, eternal globetrotters in love with the techniques and the evolution of details.

Eclectic and irreverent, an exuberance of attitude.  
A brand that translates excellence through passion.

Frame 38 C44

## Product & Craftmanship

Between clean silhouettes and chunky frames, plays of color and crystal finishes, without ever overshadowing functional lightness. Recognisable by its uncompromising approach to design, UDM combines timeless references with a contemporary aesthetic.

Designed in Milan and crafted by the wise hands of skilled artisans,

**the production  
cycle reflects  
the philosophy  
of the brand,**

empowering a new cultural positioning based on timeless love for design craftsmen, artists and nature.
